Modernize Your APS Technology with the iNavigator 2-Wire System

ICCU CONTROL UNIT / 3 SOLUTION OPTIONS

1. NEW Shelf-Mount BIU Control Unit — enables placing of calls and reception of PED intervals over SDLC with minimal cabinet wiring and supports up to 8 phases/channels

2. Standard Shelf-Mounted Control Unit — works in any traffic cabinet

3. Card Rack Control Unit — space saving solution in 300 series traffic cabinets
   — All three solutions allow remote communications and programming over Ethernet
   — LCD screen provides real-time status with Wi-Fi connectivity for easy programming

PUSH-BUTTON STATION

- Advanced pushbutton technology allows a selectable actuation force
- 360° dual-side speaker output and instant response to ambient
- Intersection sound synchronization
- Over-mold protection for electronics
- Hall-effect pushbutton, longer life and reliability

APPLICATION ACCESSIBILITY

- Wireless communication/programming per IEEE 802:11 and 802.15.1
- Easy, fast and secure programming options
- Apple® iOS APP, Microsoft® PC APP and Android® APP

APS Connectivity Accessibility, and Confidence with Independent Lab Testing:
